

ANDY SNATCH

entertainer ◦ juggler ◦ professional fool

Short press text:

England's most charming street performer presents his slack rope act. Original Juggling style, a lot of cheekiness and a big dose of charisma combine to achieve a finale in which not only Andy's muscles will be aching!

Longer press text:

Andy Snatch is a true street performer, although having earned himself a Btec in performance art at college and having studied in a circus school, he cut his teeth on the streets of Europe.

Combining great skill with his charming clownesque personality and a sharp eye to seize the moment, Andy presents his shows in a way which can't help but suck you in and keep you entertained.

In his show Imbalance too many balls are juggled, self humiliation is encouraged, danger is present and all Andy's coordination will be tested. Imminent disaster is at hand... for your entertainment!
